PROFESSIONAL EXPERIENCE

Middleware Administrator

Telefónica Tech | Nov 2023 – Aug 2026 (2 yrs 10 mos) | Bogotá, Colombia

IT outsourcing. Around 30 clients, including RENFE, ENAIRE, Meliá Hotels, Quirón Salud and Fertiberia, among others.

- Administered WebLogic, Apache, JBoss, Tomcat, WildFly and IIS in production and pre-production: ~130 WebLogic and Apache servers at ENAIRE and ~15 WildFly servers at RENFE, in client environments that also included GlassFish.
- Migrated WebLogic 12c to 14c: installed new servers, built clusters and managed servers, and configured the front-end Apache servers, in coordination with development. Applications successfully migrated to the new version.
- Patching, upgrades and hardening of WebLogic, Apache and Tomcat; remediated SOC-reported vulnerabilities (Tenable).
- JVM tuning (heap, GC, thread dumps, JDBC pools) and log and root cause analysis (RCA) in production.
- P1/P2 incidents (ServiceNow, ITIL), deployments in change windows and restarts by taking nodes out of the F5.
- 24x7 on-call support, OBM monitoring (URLs, services and processes) and training of L1 technicians.
- SSL/TLS certificates: CSR, renewal and installation on Apache, HAProxy, Tomcat and IIS; validation with OpenSSL.
- Bash and PowerShell scripts: log rotation, service checks and certificate validation.
